APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

This permit is issued subject to existing rights. It is understood that the amount of water herein granted is only a temporary allowance and that the final water right obtained under this permit will be dependent upon the amount of water actually placed to beneficial use. It is also understood that this right must allow for a reasonable lowering of the static water level. This well shall be equipped with a two (2) inch opening for measuring depth to water. If the well is flowing, a valve must be installed and maintained to prevent waste. A totalizing meter must be installed and maintained in the discharge pipeline near the point of diversion and accurate measurements must be kept of water placed to beneficial use. The totalizing meter must be installed before any use of water begins or before the Proof of Completion of Work is filed.

This Permit does not extend the permittee the right of ingress and egress on public, private or corporate lands.

No perforations shall be put in the production casing from ground level to 100 feet.

The total combined duty of water under Permits 49149 and 49150 shall not exceed 8.4 million gallons annually.

(CONTINUED ON Page 2)

The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, and

not to exceed 0.0511 cubic feet per second, but not to exceed 8.4 million gallons annually.

Work must be prosecuted with reasonable diligence and be completed on or before February 28, 1987

Proof of completion of work shall be filed on or before March 28, 1987

Application of water to beneficial use shall be made on or before February 28, 1989

Proof of the application of water to beneficial use shall be filed on or before March 28, 1989

Map in support of proof of beneficial use shall be filed on or before _____
